Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action response to the letter mail on October 23, 2006; and also, vacating the advisory letter mail on September 21, 2006 in favor of this Final Rejection.

2. Acknowledgment is made of applicant's Amendment, filed 24 February 2006.

The changes and remarks disclosed therein were considered.

3. Claims 32-34 are pending in the application.

Drawings

4. The corrected or substitute drawings were received on 18 October 2005. These drawing are acceptable.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 32-34 are rejected under 35 U.S.C. 102(e) as being anticipated by Gilton. (US. 2003/0194865).

Regarding claim 32-34, Gilton in Figure 3 disclosed a memory device (memory cell 120) comprising:

A resistive layer with a plurality of solid electrolyte elements (110) and a metallic layer (112) and wherein the resistive layer is a layer with a plurality of solid electrolyte element (110) embedded in an insulator layer (200) and wherein the size of solid electrolyte elements (110) is in the range of about 1-50 nm (electrolyte in the range of 25-75 nm, see column 3, paragraph 0037).

Response to Arguments

7. Applicant's arguments filed on 24 February 2006 have been fully considered but they are not persuasive.

Applicant argues, on page 2, paragraph 1, that Gilton fail to discloses a resistive layer with "a plurality of solid electrolyte" embedded therewithin and metal layer thereon.

Examiner disagrees. Gilton discloses a metal film (112) is deposited over a resistive layer (110) formed of electrolyte element, see paragraph 0024. Applicant has not claimed any specific arrangement or types of electrolyte elements.

Applicant argues, on page 2, paragraph 2, that the memory cell of Gilton includes only pillar. The pillar structure of Gilton is completed different from the cell structure of applicant.

Examiner disagrees. Applicant has not claimed any specific configuration to differentiate the claimed structure from that shown by Gilton.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
